Compendium of Knowledge Finalization

The final component of your Compendium of Knowledge will be to assemble your pages into a complete book. Your book will need a cover, table of contents, introductions to your sections, and a completed Works Cited page. These components combined will be worth a maximum of 38 points.

As you organize your book, please keep the following things in mind:

Cover

- You may be as creative as you desire in the creation of your cover
- Please remember to make a cover that binds all of your pages, front and back

Table of Contents

- The Table of Contents should appear in the front of your book
- Must inform the viewer of the location (page number) of each section and the subjects within

Sections with introductions

- How you divide your pages is up to you - by methodology used, in chronological order, by artistic period, by media, by subject, etc.
- Each section must begin with a two or three paragraph explanation that summarizes the contents and explains what similarities the works in that section share

Works Cited page

- MLA format
- The Works Cited page should be arranged in alphabetical order by author's last name
- Needs to include full bibliographic entries for all the sources cited within the book's pages

Please insert this rubric page into your completed book for grading.

Cover		out of 5 points
Table of Contents		out of 5 points
Sections with Introductions		out of 5 points
Summaries	out of 3 points
